OBJECTIVE

The BMO S&P 500 Hedged to CAD Index ETF has been designed to replicate, to the extent possible, the performance of the S&P 500 Hedged to Canadian Dollars Index (Index), net of expenses. The ETF invests in and holds the Constituent Securities of the Index in the same proportion as they are reflected in the Index. The U.S. dollar currency exposure is hedged back to the Canadian dollar.

Past performance is no guarantee of future performance. All returns are historical annual compounded total rates of return and reflect changes in yield and distributions reinvested. Managed Indexed, Managed Portfolios and Market Indexed accounts credit an interest amount mirroring the net rate of return of a specified underlying investment, less a BMO Life Assurance Company daily management fee. These rates of return do not reflect the current BMO Life Assurance Company management / universal life fee which must be taken into consideration when determining the net return earned on the account.
