**BMO Low Volatility Intl Equity ETF**

The information contained in this profile is related to the index indicated above. As part of a BMO Life Assurance Company policy, you do not purchase units in this index or a legal interest in any security.

**OBJECTIVE**

BMO Low Volatility International Equity ETF has been designed to provide exposure to a low beta weighted portfolio of international stocks in developed countries outside of North America. Beta measures the security's sensitivity to market movements. ZLI utilizes a rules based methodology to build a portfolio of less market sensitive stocks from a universe of international large cap stocks. The underlying portfolio is rebalanced in June and reconstituted in December.

**GROWTH OF \$10,000**

Annual values as of 30 September 2020

Past performance is no guarantee of future performance. All returns are historical annual compounded total rates of return and reflect changes in yield and distributions reinvested. Managed Indexed, Managed Portfolios and Market Indexed accounts credit an interest amount mirroring the net rate of return of a specified underlying investment, less a BMO Life Assurance Company daily management fee. These rates of return do not reflect the current BMO Life Assurance Company management / universal life fee which must be taken into consideration when determining the net return earned on the account.
