

North American Equity Enhanced Market Indexed Account

The information contained in this profile is related to the index indicated above. As part of a BMO Life Assurance Company policy, you do not purchase units in this index or a legal interest in any security.

OBJECTIVE

This account credits a daily interest rate based on a portfolio of enhanced equity investments linked to the Low Volatility TSX (TXLV) and S&P500 (SP5LVI) market indices. The portfolio uses derivative strategies to mitigate investment risk during market downturns. To further reduce volatility, BMO Insurance applies a smoothing formula.
